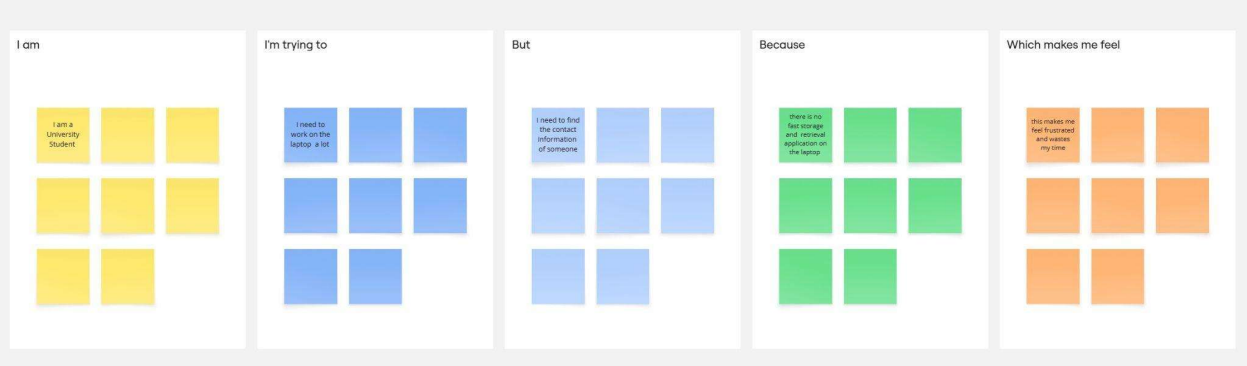
Problem Statement

People struggle to effectively manage and maintain their growing professional and personal networks because existing solutions are either too complex, too expensive, or lack the simplicity needed for quick contact organization and retrieval.



Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel

PS-1	A university student	Store and retrieve contacts on the laptop	Most platforms are only available for mobile phones	I need quick access to my contacts while i am working	Frustrated
PS-2	A developer	Get the required contacts on laptop while working	The available application s are for mobile phone	I need a simple, visually appealing interface to store and get my contacts	Waste of time to continuously use mobile while working
